

Premium Hemp CBD Oil

An advanced approach to natural health using the full-strength therapeutic dose phyto-cannabinoid rich Hemp (CBD) oils..

Superior 3-Step Process The industrial hemp stalks and seeds used to create Sunshine Global Premium High Grade Hemp CBD Oil are carefully selected and monitored through each phase of an unrivaled 3 step process to ensure the purest, most potent and highest quality CBD oil on the planet.

Superior 3-Step Process

STEP 1: Cultivation: Selection of strategic European geographic regions to ensure optimal soil conditions and sunlight utilizing proper herbal farming methods including seed selection, land preparation and nutrient management.

STEP 2: Harvesting: Closely monitoring and nurturing each phase with regular scheduled clippings to encourage branching and fresh growth and harvesting when hemp plant alkaloid content is at its peak phase.

STEP 3: Extraction: A SuperCritical CO2 extraction is used with optimum water temperature and soaking to produce the smoothest, cleanest hemp seed oil extracts for maximum quality, purity and potency.
